Author Bio

Tiffany Jade McNeely is a poet whose work explores the layered nature of human experience, drawing on themes of memory, emotional complexity, and the quiet tensions that shape inner life. She began writing at a young age and later earned a Master's in Applied Psychology, a background that informs her attention to thought, behavior, and the unspoken. Her work blends personal history with reflective observation, creating space for vulnerability and resonance. She publishes under the imprint she co-founded, Clovia Press, based in the Appalachian Mountains.

Book Description

Poetry Obscura is a collection of poems that moves across emotional and psychological terrain, bringing together pieces that range from intimate and reflective to unsettling and abstract. The work resists a single perspective, instead presenting a shifting voice that explores interior states, imagined realities, and the tension between them.

Rather than offering a linear narrative, the collection builds a layered experience, one that invites readers to engage with both the familiar and the unfamiliar, and to consider the complexities that exist beneath surface emotion.
